MID SUSSEX DISTRICT COUNCIL

DM/26/0202

**25 The Leas, Crawley Down, Crawley, West Sussex, RH10 4EP, ,
Loft conversion with part hip to gable conversion, rear dormer and velux windows to the front.
Mr Stantaford**

PARISH COUNCIL OBSERVATIONS

Defer to officer.

REPRESENTATIONS

None received.

INTRODUCTION

This application seeks a Lawful Development Certificate for a loft conversion with part hip to gable conversion, rear dormer and Velux windows to the front.

PLANNING HISTORY

None relevant.

SITE AND SURROUNDINGS

The application property is an end of terrace two storey dwelling located at the east end of the cul-de-sac The Leas, within the built-up area boundary of Crawley Down.

The application property has a hipped roof and is constructed from brick and white render with slate roof tiles and white uPVC fenestration. The dwelling is set away from the highway with a parking area to serve the dwellings at the end of the cul-de-sac to the front. the locality consists of a new build development of two and three storey dwellings of a similar design with a mix of both render and brick used.

APPLICATION DETAILS

The proposed part hip to gable extension would be located on the east side of the dwelling extending the roof by 3.53 metres. The extension will have a flat roof sitting below the ridge height of the original roof by 0.90 metres.

The dormer is to be located on the rear (north) roof slope and will have a width and depth of 4.673 metres and 3.115 metres. The dormer will have a flat roof with a height of 2.376 metres and be constructed from hanging tile to match the existing roof.

3 no. velux windows are proposed on the front (south) elevation.

LEGAL FRAMEWORK

This application is to establish whether the existing development would benefit from permitted development rights and will be a legal decision; planning merits cannot be taken into account when considering this application.

The existing enlargements and alterations will be tested against the relevant criteria of Part 1 Classes B and C Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), as detailed below:

Class B - additions etc to the roof of a dwellinghouse

Permitted Development

The enlargement of a dwellinghouse consisting of an addition or alteration to its roof.

Development Not Permitted

B.1 Development is not permitted by Class B if—

- (a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q of Part 3 of this Schedule (changes of use);
- (b) any part of the dwellinghouse would, as a result of the works, exceed the height of the highest part of the existing roof;
- (c) any part of the dwellinghouse would, as a result of the works, extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway;
- (d) the cubic content of the resulting roof space would exceed the cubic content of the original roof space by more than—
 - (i) 40 cubic metres in the case of a terrace house, or
 - (ii) 50 cubic metres in any other case;
- (e) it would consist of or include—
 - (i) the construction or provision of a verandah, balcony or raised platform, or
 - (ii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe;
- (f) the dwellinghouse is on article 2(3) land
- (g) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses); or
- (h) the existing dwellinghouse has been enlarged in reliance on the permission granted by Class AA (enlargement of a dwellinghouse by construction of additional storeys).

Conditions

B.2 Development is permitted by Class B subject to the following conditions—

- (a) the materials used in any exterior work must be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse;
- (b) the enlargement must be constructed so that—
 - (i) other than in the case of a hip-to-gable enlargement or an enlargement which joins the original roof to the roof of a rear or side extension—
 - (aa) the eaves of the original roof are maintained or reinstated; and
 - (bb) the edge of the enlargement closest to the eaves of the original roof is, so far as practicable, not less than 0.2 metres from the eaves, measured along the roof slope from the outside edge of the eaves; and
 - (ii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension, no part of the enlargement extends beyond the outside face of any external wall of the original dwellinghouse; and
- (c) any window inserted on a wall or roof slope forming a side elevation of the dwellinghouse must be—
 - (i) obscure-glazed, and
 - (ii) non-opening unless the parts of the window which can be opened are more than 1.7 metres above the floor of the room in which the window is installed.

Interpretation of Class B

B.3 For the purposes of Class B, "resulting roof space" means the roof space as enlarged, taking into account any enlargement to the original roof space, whether permitted by this Class or not.

B.4 For the purposes of paragraph B.2(b)(ii)—

- (a) roof tiles, guttering, fascias, barge boards and other minor roof details overhanging the external wall of the original dwellinghouse are not to be considered part of the enlargement; and
- (b) "rear or side extension" includes an original part of, or a subsequent extension of, the dwellinghouse that extends from the rear or side of the principal part of the original dwellinghouse.

Class C - other alterations to the roof of a dwellinghouse

Permitted development

C. Any other alteration to the roof of a dwellinghouse.

Development Not Permitted

C.1 Development is not permitted by Class C if—

- (a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class G, M, MA, N, P, PA or Q of Part 3 of this Schedule (changes of use);
- (b) the alteration would protrude more than 0.15 metres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof;
- (c) it would result in the highest part of the alteration being higher than the highest part of the original roof;
- (d) it would consist of or include—
 - (i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or
 - (ii) the installation, alteration or replacement of solar photovoltaics or solar thermal equipment; or
- (e) the dwellinghouse is built under Part 20 of this Schedule (construction of new dwellinghouses).

Conditions

C.2 Development is permitted by Class C subject to the condition that any window located on a roof slope forming a side elevation of the dwellinghouse must be—

- (a) obscure-glazed; and
- (b) non-opening unless the parts of the window which can be opened are more than 1.7 metres above the floor of the room in which the window is installed.

ASSESSMENT

The property's planning history has been checked and household permitted development rights are understood to be intact for the element proposed. The property is not located on Article 2(3) land or subject to an Article 4 Direction.

The proposed enlargement would be situated within the curtilage of the dwellinghouse and the location, dimensions, and volume (39.762 cubic metres) of the proposal complies with applicable criteria of Classes B and C. The exterior materials of the proposed works would be similar in appearance to the materials of the exterior of the existing dwellinghouse.

CONCLUSION

In conclusion, the proposed development is deemed to comply with the applicable permitted development criteria as set out within Classes B and C of Part 1 Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) and therefore a certificate can be issued.
