Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

1. - Louver design - changed due to clashes with the structural grid, identified at detailed design stage. The dimensions of the louvers have changed slightly to accommodate the position of the structural columns and other building fabric elements.
The louver sizes originally consented were: East Side (square opening) 3.44m2, West Side (rectangular opening) 5.40m2, Total 8.84m2
The updated size for both louvers is 3.72 m² New total: 7.44 m².
The updated louver sizes are shown on drawing 1442-HUN-XX-XX-DR-A-07-0003-P04-ProposedElevationsSheet2

2. - Change the entrance ramp – the updated design was shown on the submitted Landscape General Arrangement Plan (1442-HUN-XX-00-DR-A-05-0005 P02). The design has changed due to the updated topographical survey, which provided different spot levels in relation to the ones adopted during the early stages of the design, and up to the planning submission. The external levels around the building, have been adjusted to optimise the access to the new facility, with particular emphasis on the relation between the building entrance and the existing car park, making this levelled access. The design has changed from a dog-leg shape to a straight ramp on the lower part of the site, as well as optimizing the other ramps and stairs that provide access to the new facility. This will benefit wayfinding and disabled access to the building, improving the accessibility to the building in relation to the approved plans. I've attached the original approved design and the updated for you to see the difference.
The updated entrance ramp design is shown on drawing 1442-HUN-XX-00-DR-A-05-0005-P04-L0LandscapeGeneralArrangement
