Attachments: Planting Garage 2025.pdf

Good afternoon, Stuart, Thank you for your email.

Please see attached planting plan for the new garage, we want to minimise the impact on the wildlife within our front garden and try to encourage new birds and animals so after building the new garage we will replant new bushes and plants between the garage and pathway, as illustrated.

If you require any further assistance or information please let me know?

Kind Regards,
Richard Hawkins

Dear Mr Hawkins

I refer to the above application for which I have a couple of questions.

Please confirm your intentions for the front boundary treatment? You may wish to annotate the proposed site plan to confirm this.

Also, you mention in the application form that you will “look at planting new bio diverse shrubs and bushes to encourage native wildlife to the area.” Please confirm where you would be able to provide this additional landscaping? Again, you may wish to simply indicatively annotate the proposed site plan for this.

Thanks

Stuart
