Good afternoon

I am writing to you to object in the strongest possible terms to the above planning references.

It is beyond ludicrous!!!!!!

I moved to Crawley Down in June 2023 and despite numerous attempts I only managed last Wednesday 19th March 2025 to get a phone call from a Doctor at the Crawley Down Health Centre!!

So how the hell are they going to cope with more residents?

This health centre is already in "special measures!!!"

Turners Hill Rd cannot cope with the current traffic, every winter the drains collapse from the Dukes Head roundabout heading towards Turners Hill. I also have a £790 bill to prove it, from a collapsed drain a few weeks ago outside the tree surgeons.

Don't say they'll be a new Doctors surgery and schools we all know there won't.

Please do the right thing here for the sake of the current community, businesses, schools and health system

Kind regards
