Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	The single Sycamore tree located at the back of the property at 12, Heron Place, East Grinstead, West Sussex, RH19 4TD. I am requesting authorisation to reduce the height and spread of the tree by 2metres. The tree was last reduced in 2022. I would like for the works to be carried out as the branches are reaching over the garden patio area and causing a reduction in sunlight to the garden. The tree is against the fence with the neighbours (located on Cornwall Gardens) and there are several branches overhanging their property. Please feel free to contact me if you require any further information.

Please provide a reason why you wish to perform these works	Branches are overhanging the garden patio area and the neighbouring garden at the rear of our property. A reduction in height and spread would reduce the risk of branches being dropped due to high winds. The tree is also causing a reduction in sunlight to our garden and our neighbours.
Condition of the trees(s)	No
