Hi Katherine,

The proposed plan now protects the trees, so I am happy with that.

Kind regards

Emma

Dear Katherine,

Thank you for sending the comments from the Council's Tree Officer regarding the T10 - Ash tree.

Please find attached the revised Proposed Site Plan (2414-003C) indicating the amended Storage Yard area to avoid the RPA to tree T10 - Ash, and also to avoid the RPA to the next tree T11 - Oak as well as the first tree T9 - Oak.

As previously, the yard area is bounded by a 1.8m high close boarded timber fence and is set 8.4m away from the trunk to T9 - Oak, 4.8m away from the trunk to T10 - Ash, and 8.4m away from the trunk to T11 - Oak, all of which are the RPA distances for each of these three trees.

Please let me know if you or the tree officer have any other queries regarding this proposal, thank you.

Kind regards,
Stuart

Dear Stuart,

Thank you for your email and the amended plan.

Please see the below comments from the Council's Tree Officer, who requires further alteration.

Whilst this is an improvement, it is still not ideal. I can see that the yard has been removed from the RPA of T9, which is great, but the ash tree (T10) has not been considered. As ash trees are susceptible to Ash Dieback disease, particularly when compromised or damaged, and this tree has been classified as a category A, I would prefer to see the RPA uninhibited, much like the new proposal has shown for T9.

Would it be possible to fence of the RPA of T10, in a similar way as T9 has been. I know this will reduce the storage area, but would it not be possible to extend the storage yard to the south, avoiding other RPA's to compensate for the loss of space whilst protecting these important trees?

Kind Regards
