Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	We strongly object to this variation of condition which is ill-conceived and unrealistic in an unlit, residential C-class country lane where there have been several fatal night-time accidents in recent years. The access restrictions were imposed at the time of the original application for reasons of safety and the welfare and security of local residents and nothing has changed between then and now. Instead of attempting to turn a residential rural lane into an industrial site it would more realistic, and less invasive on the local community, to build on one of the many local existing industrial estates which have vacant plots as well as round-the-clock access and all the necessary support amenities. Regards

Kind regards
