Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I am writing to express my full support for the planning application DM/25/0090 for the proposed equestrian facilities at Eastwood Farm. Being part of the equestrian industry myself, these world class training facilities particularly the indoor and outdoor arenas and stables will provide much needed infrastructure for Luca who

is a young showjumping talent to train his top quality horses to the highest level. The use of the horse walker and paddocks would provide a safe and suitable environment for the horses movement and enable them to adhere to welfare standards as of which Abi and Luca have a strong commitment to.

I believe the development of these facilities will provide significant benefits the local community by providing jobs which will reduce unemployment levels and benefit the local economy and also the environment by the creation of an ecology pond this will contribute to the area's biodiversity which will lead to greater stability within their ecosystems.

Therefore, I fully support this application and I trust that the planning committee will see the benefits of this application.

Kind regards
