Hi Steve,

Further to you call with Charlotte last week, the final updated plans can be found in the following link:

 [P2177 Imberhorne Landscape and Architectural Updates 260526](#)

These are to supersede the corresponding plans submitted last week.

I trust that these have been provided soon enough for the application to make the deadline for committee.

Kind Regards,

Joseph Chan
Graduate Planner,

Dear Joseph

Thank you for your e mails re the above application.

Are you able to confirm that this is now the last of the updated documents that will be submitted? The revised submissions will need re-advertising, and I only want to do this once.

Reports for the District Planning Committee meeting on 16th July need to be completed by 30th June. I will endeavour to take the application to the earliest committee possible, but I cannot guarantee at this stage that it will be on the July agenda.

Regards

Steven King, BSc (Hons) Dip TP, MRTPI

Dear Steve,

Further to my previous email, could the following updated drainage report also be included as part of the application.

☐ [P2177 Imberhorne Drainage Updates](#)

To summarise the reasons for this update, the recently submitted amended layout plan included marginally moving two of the drainage basins fully outside the 15m Ancient Woodland buffer where previously it was found to be encroaching. The relocated basins have no material impact on the technical specification of the basins, however for completeness the drainage technical note containing the detailed drainage basin designs has been updated accordingly.

We would also like to note that that, while the timing of these updated documents may have pushed the application beyond the deadline for June committee, we are still hoping to have this application considered at committee in July. We would appreciate confirmation that this is feasible and your cooperation to enable this.

Kind Regards,

Joseph Chan
