Hi Joseph,

I have reviewed the new information submitted for this application. However, it does not appear that any additional information has been submitted with regard to ecology.

As stated in our response dated 3rd October 2025, we recommend that the finalised measures for protected species and irreplaceable habitat should be secured via a Construction Environmental Management Plan (CEMP) / updated Ecological Impact Assessment, as secured under condition 8 and condition 20 of DM/18/5114, prior to commencement of the proposed works.

Please do not hesitate to contact us if you have any queries in relation to this advice.

Kind regards,

Hamish
