Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I would like to register my support for this planning application. In my view, this is a sensible and sustainable proposal that represents a logical extension to the existing development! Rather than creating an isolated new estate, it builds naturally on the recently completed homes, forming a cohesive and well connected addition to the village.

Growth is essential if villages are to remain thriving communities. By providing new homes in an appropriate location, this development has delivered.

Overall, I believe this is a well designed scheme that respects the character of the village, adjacent to recently built homes and for that reason deserves support.

Kind regards
