Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I would like to support this planning application. I have roots in Ansty and have always hoped that one day I might be able to move back to the village. Like a lot of younger people, finding an affordable home in a place you have a connection with is becoming harder and harder.

I think this is a sensible proposal that gives people like me a chance of living in the village again. It isn't a huge development, it's a natural extension to the homes that are already there, and from the plans it looks like it has been designed to fit in with the surrounding area.

Villages need new people as well as those who have lived there for years. Without new homes, younger generations can end up being priced out of the places they grew up knowing. Developments like this help keep communities alive and give people the opportunity to stay connected to the villages they care about.

I hope the application is approved, as I think it would be a real positive for Ansty and for people who would love the chance to make it their home.

Kind regards
