Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Mid Sussex District Council chose not to put this property on the Buildings at Risk Register in spite of being told about its dire condition. For Mid Sussex District Council to now quibble about certain insignificant details being slightly different from the original application seems to me to be missing the point. The current owners have invested a substantial sum of money in this property to protect it for the next 50 years. They employed a team of professionals to design and supervise the restoration and having

visited the property I believe they have done a fantastic job. The materials used and the workmanship is of the highest quality and enhances the street scene and the conservation area. Mid Sussex District Council should be encouraging this type of high quality restoration. To question what has been done in the garden is to ignore its condition at the start of the project. The garden was overgrown with a broken down caravan and rubbish strewn everywhere. It is now a haven of tranquility, professionally designed and beautifully planted. I trust you will recommend the retrospective application for the minor changes to the original application.

Kind regards
