

Ordnance Survey Plan

Published 1974 - 1978

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Map Name(s) and Date(s)

TQ2818	1978	1:2,500
TQ2817	1974	1:2,500

Historical Map - Segment A13

Supply of Unpublished Survey Information

Published 1974

Source map scale - 1:2,500

SUSI maps (Supply of Unpublished Survey Information) were produced between 1972 and 1977, mainly for internal use at Ordnance Survey. These were more of a 'work-in-progress' plan as they showed updates of individual areas on a map. These maps were unpublished, and they do not represent a single moment in time. They were produced at both 1:2,500 and 1:1,250 scales.

Map Name(s) and Date(s)

TQ2818	1974	1:2,500
TQ2817	1974	1:2,500

Large-Scale National Grid Data

Published 1994

Source map scale - 1:2,500

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Survey of Information on Microfilm') in 1992, and continued to be produced until 1999. These maps were the fore-runners of digital mapping and so provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

Map Name(s) and Date(s)

TQ2818	1994	1:2,500
TQ2817	1994	1:2,500

Historical Ordnance Survey Map Interpretation				
Date	Scale	Features On Site	Features Off Site	Significant Potential Contamination Sources
1874 – 1881	1:2,500	The site is shown on the northern edge of a large field.	Buildings associated with Danworth Farm are shown to the 50m north and 60m to the northeast of the site. Danworthbrook Farm is shown 160m northeast of the site, otherwise the area comprises open agricultural land.	None identified.
1897	1:2,500	The site remains unchanged, although the field in which it is located and the adjacent field to the south and east are now one large field.	The surrounding area is significantly unchanged, with Danworthbrook and Danworth Farm still both shown.	None identified
1910	1:2,500	The site remains unchanged.	The surrounding area is also unchanged.	None identified.
1937	1:2,500	The site remains unchanged.	The surrounding area is also unchanged.	None identified.
1956	1:2,500	With the exception of the removal of a field boundary to the immediate north, the site remains unchanged.	The surrounding area also appears notably unchanged.	None identified.
1974 – 1978	1:2,500	The site is shown as part of a large barn.	A number of the other buildings associated with Danworth Farm has also been altered/redeveloped. several large tanks (possibly silos or water tanks) are shown adjacent to the barn. The surrounding area remains largely unchanged from the earlier mapping.	None identified.
1974	1:2,500	The site remains unchanged.	The surrounding area is also unchanged.	None identified.
1994	1:2,500	The site remains unchanged.	The surrounding area is also unchanged.	None identified.
1999	Aerial Photo	The site appears largely unchanged.	The surrounding area is also unchanged.	None identified.

NOTE: Additional maps at 1:10,560 and 1:10000 scale of similar age have been obtained. These maps are appended but do not provide much additional information.
