CAUTION: This email originated from outside of the organisation - please exercise care with links and attachments

Dear Olivia,

Thank you for your email.

I have now received the completed S.106 agreement from the Council's Legal Department.

Please see the below list of pre-commencement conditions, are these acceptable?

- The development hereby permitted shall not commence unless and until details of the proposed foul and surface water drainage and means of disposal have been submitted

to and approved in writing by the local planning authority. The building shall not be occupied or brought into use, until all the approved drainage works have been carried out in accordance with the agreed details.

Reason: To ensure that the proposal is satisfactorily drained and to accord with Policy DP41 of the Mid Sussex District Plan 2014 - 2031.

- No development shall take place unless and until there full details of both hard and soft landscaping, to include details of proposed replacement trees and fencing, has been submitted to and approved in writing by the Local Planning Authority. The works shall be carried out in accordance with the approved details unless otherwise agreed with the Local Planning Authority. Any trees or plants which, within a period of five years from the completion of development, die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: In the interests of visual amenity and of the environment of the development and to accord with Policies DP26 and DP37 of the Mid Sussex District Plan.

I will now be on annual leave and will return on 18th June, to allow time for the application to be determined in time upon my return I would like to request an extension of time to 20th June. Please let me know if this is acceptable.

Dear Olivia,

Following your previous email comments have now been received from Flood Risk and Drainage, which are attached and raise no objection.

Given these comments the only outstanding matter is the completion of the S.106 for SAMM and SANG mitigation.

I note that the target date for the application has now passed, to allow time for this to be completed I would like to request an extension of time to 25th April, as this matter can take some time to resolve.

Please let me know if this date is acceptable?

Hi Olivia,

Thank you for your email.

As the previous approval for the access was for the existing equestrian use, and has not yet been constructed, reference to this permission should not be made within the description for the current application and the access must for part of the consideration of the application.

I would therefore like to request that the description suggested by Christine Pound is accepted.

Hi Christine,

Hope you are well.

As the access application has already been approved, we would suggest the following description of development please- *“Conversion of the existing barn and stable block to a residential property and creation of a new access (as per approved under ref: DM/24/0519)”*.

Please could you let us know when the site planning notices go up.

Many thanks,

Liv

Subject: DM/24/2830_ Orchard Farm, Nash Lane, Scaynes Hill - confirmation of amended description needed

CAUTION: This email originated from outside of the organisation - please exercise care with links and attachments

Dear Olivia,

After a brief review of the above application, the case officer has asked that the description of the proposal be amended as follows:

“Conversion of the existing barn and stable block to a residential property and creation of a new access.”

Please can you confirm that this is acceptable at your earliest convenience so the application can be advertised.

Kind regards,

Christine
