[REDACTED]

I am objecting to the proposal for the building of 210 dwellings and I would like this to be taken into consideration.

- 1.The loss of acres of farmland
- 2.Loss of access for the public footpaths
3. The volume of extra vehicles using The already congested road.
4. Access to the new site.
5. Flooding from the land although ponds will be installed would overflow onto the main road and consequently into the properties at wintergreen way and Furzeland Way.
6. With the vast number of properties being constructed in Burgess Hill where there are many more facilities for those families, is it really necessary for the building of properties in Sayers Common as there are NO facilities except for a small community shop.

I hope all objections will be taken into consideration when this goes to committee.

Yours
