Woodsland Road Hassocks West Sussex BN6 8EX

Hi Anna,

Thank you for your email.

I have passed on to my client and intend to discuss various aspects of this application with him in the next day or two.

In the meantime, I am happy to agree the extension of time as suggested to 31.10.25.

A couple of questions I do have, if you can advise where possible:

I trust the issue re the drainage/FRA relating to the application next door is still ongoing? I am aware that the revised information we discussed relating to the ecology/ponds/trees has not yet been submitted. I will chase an update on this. Would it be considered by the L.A. for issues relating to drainage/flood risk / Newts etc to be conditioned on approval?

Thanks again for your on-going communication with this. Once I have an update I will respond accordingly and will be better placed to advise on our next steps and progress with the application.

Kind regards

Roger Pike

Subject: RE: Site visit arrangement/EOT request - DM/25/1800 Woodside Grange Woodsland Road Hassocks West Sussex BN6 8EX

Good morning Roger

Following on from your email of 24.09.2025, please can I ask if I should make arrangements with you for my site visit? If your clients do not wish to pursue the application please can you advise me by return email.

Site notices have been posted to ensure that the neighbouring residents are made aware of the proposal. The expiry date for comments runs until 22.10.2025 on these site notices.

I am aware that this post dates the Decision Target Date of 14.10.2025. As such I do need to request your agreement to an Extension of Time (EOT) for the determination of the application, if your clients wish the application to proceed to a decision.

Please can I request your agreement to an EOT to 31.10.2025? A return email to agree this will suffice.

I look forward to hearing from you.

Regards
Anna

Hi Anna,

Please postpone your intended site visit tomorrow. There are some issues that have arisen and I have been advised to ask you postpone the visit.

I hope that's OK.

Best regards

Roger Pike

Dear Roger

Thank you for your email and confirmation regarding my intended site visit tomorrow.

Unfortunately, I note that the Drainage consultation reply from 18.09.2025 had not been saved into the Public Register, but this has now happened. For your information the Flood Risk and Drainage Engineers reply was as follows:

Dear Anna,

The Flood Risk and Drainage Team have reviewed the latest information submitted, following a meeting on 13th August 2025 where guidance was given against attached and as attached and have the following comments:

- A freeboard of 0.3m is required for the attenuation pond.*
- The total area being drained is not consistent throughout the calculations.*
- The height of the attenuation within the proposed pond is not consistent with the design head within the calculations.*
- Evidence needs to be provided that the proposed pond provides the required attenuation volume.*
- The drainage layout indicates the discharge location is located outside of the ownership boundary. In a previous discussion (13.08.25) it was advised that the applicant owns the land up to the ditch, however the submitted mapping seems to contradict this. Confirmation should be provided.*
- The Operation and Maintenance Manual should include details regarding the maintenance of the attenuation pond.*
- Confirmation should be provided from Taylor Wimpey/ Southern Water that they would find a pumped connection directly into their network acceptable.*

Following receipt of the additional information requested, we shall review and provide further comments on this application.

Best Wishes

Flood Risk and Drainage Team

Estate Services and Building Control
Mid Sussex District Council
drainage@midsussex.gov.uk

The applicant has been made aware of the above response, and I await the submission of further drainage details to address condition 11. There are no other outstanding matters with regards to the Discharge of Conditions application DM/25/0240, which relates to the Discharge of Conditions 3,7, 8,11,14,15,18,20,21 and 22 of DM/23/2688.

Please contact me if you wish to discuss the current application under DM/25/1800 further.

Hi Anna,

Thanks for the email and for your time yesterday, much appreciated.

As discussed, we will be looking to provide revised information in relation to the pond, so primarily regarding ecology, trees and landscaping. Subsequently, it would be prudent to agree on an extension of time for the application. I have therefore asked my client and the ecologist involved to give an estimate on when they believe the information will be compiled and provided. Once I have their comments I will be in touch and we can agree on a realistic date.

I hope to have this in the next day or so, thank you.

Also – noted re you site visit tomorrow. I will advise the client of this now.

Finally Anna, you kindly provided me yesterday with the reference number for the Discharge of Conditions Application relative to the adjacent property (the detached single storey dwelling). You mentioned that there was an outstanding condition yet to be discharged, relating to drainage. I had a look yesterday and noticed that further information was issued and acknowledged by the Local Authority in August. Has this information been reviewed as yet do you know and is there a request for any further information at this time?

Also, are there any other issues / outstanding information relating to any other conditions, or is just the drainage?

Thanks Anna, any information you can provide would be appreciated,

Best regards

Roger Pike

Hi Roger

Thank you for your call this morning. It is helpful to understand your clients' plans and I await the revised/additional plans and supporting statements, as discussed. I hope that your clients will be agreeable to an Extension of time to allow for the extra consultations that the changes will necessitate.

I have now checked the planning records for this application and I note that there are 3 outstanding consultation replies due from: the Flood Risk and Drainage Team, Ecologist and Naturespace/Newt Officer. I will endeavour to find out the timescale for the receipt of these comments. Once received, the comments will be uploaded to the online Planning Register, see [View and Comment on Planning Applications - Mid Sussex District Council](#)

Please can I request that you advise the site owners that I would like to undertake my site visit this Thursday, 25th September, in the morning after 10am? I do not need to meet anyone at the site, but I will need to enter the garden. The visit should not take longer than 30 minutes. I will take photographs of the existing house and the surroundings to assist in my report writing. **Please can they ensure any access gates are unlocked and open for my visit?** If there is any reason why this is not convenient, I shall be pleased if you can advise me as soon as possible.

I look forward to hearing from you regarding my visit.
Thank you.

Kind regards
Anna
