Dear Mr Makasis

I write with regards to the above planning application for a new barn and workshop.

I note that the attached elevational drawing of the proposed barn building is drawn at a scale of 1:125 rather than 1:100 which we would normally expect.

I would be grateful if you could provide an updated drawing to show the proposal barn at a scale 1:100 or alternatively include annotations of the proposed dimensions of the building including overall height and height to eaves.

I hope that the above assists but please get back to me should you have any queries.

Kind regards

Debbie.
