I have no objection the proposed works at 77 Wivelsfield Road, I do, however, have concerns about the works vehicles and where they will park.

Several properties on Wivelsfield Road have had work done where the work vans have been parked blocking traffic. I live very close to the busy roundabout at the bottom of the Haywards Heath bypass, which provides access to Ditchling, Burgess Hill, Haywards Heath Town Centre, the housing development served from Kennard Lane and the bypass itself. I have witnessed ambulances, fire appliances, police vehicles and buses have their journeys impeded by the poor parking.

As part of the Planning Permission, please will you make it a requirement for any vehicles involved in the building works to park without impeding traffic heading into and out of Haywards Heath?

Your sincerely
