Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly oppose the erection of a new 30 meter mast on the land North of Leylands Road Burgess Hill. The area is a wildlife haven, as part of the corridor to and from Bedelands Nature Reserve .The area is recovering following works to the railway embankment and further works in this area would impact on its recovery. Deer, foxes, badgers as well as other smaller wildlife have been seen here.

The size of the mast is excessive and will be an eyesore and clearly seen by resident in a wide circle to the west of the railway line and on the east side of the railway line. It is also not known what noise will be emitted and cause continual disturbance to close neighbours

The size of the mast is excessive, vastly taller than the trees and will resemble an industrial installation in a valued green space used by local residents and others from a wider area.

Kind regards
