Subject: Re: Planning Application no: DM/26/1963.

[REDACTED]
Good morning,

Re: DM/26/1963.

Good morning,

Re: Planning Application DM/26/1963.

I am writing to formally object to the above planning application.

I live at 37 Edwin Street, Burgess Hill, and my objection relates particularly to the proposed location of several parking spaces immediately adjacent to my garden fence.

The plans indicate that these spaces would be approximately 3 metres from my bedroom window. Their close proximity to my home is likely to result in regular and intrusive noise, including vehicle movements, engines starting and running, car doors opening and closing, and conversations associated with parking and accessing vehicles. This activity could occur throughout the day and potentially during the evening and early morning.

Because of the location of my bedroom, the resulting noise would be likely to disturb my sleep and significantly affect my ability to enjoy my home and garden. The proposed arrangement would therefore have a harmful impact on the residential amenity of my property through increased noise, disturbance and activity immediately alongside my home.

In assessing the application, I respectfully ask the Council to consider whether the proposed parking layout would provide an acceptable relationship between the development and neighbouring residential properties. In particular, consideration should be given to the potential impact of vehicle-related noise and disturbance, the proximity of the parking spaces to my bedroom, and the effect on the living conditions and reasonable enjoyment of my property.

I would be grateful if the proposed parking arrangement could be reconsidered and, if necessary, relocated or redesigned to reduce its impact on neighbouring residents. If the application is approved, I ask that appropriate measures are required to prevent unacceptable noise and disturbance.

Thank you for taking the time to consider my objection.

Kind regards,

[REDACTED]

37 Edwin St, Burgess Hill. RH15 9HT.
