As the online system does not seem to be working , please see my comments as a long term local resident.

The pub garden is a hub and meeting point for local residents.

It is a real part of the community, for example they have just recently held a charity fund raising day.

Too many of these irreplaceable assets in small villages are being destroyed by financial greed by organisations that do not live locally, with no regard to the communities they effect.

The pub garden is the only one in the centre of the village and should be retained for the enjoyment of all.

I can't see the demand for these houses, there are so many proposed big developments planned in and around the village. These developments, I assume, would increase demand for a local pub and garden.

A balanced local community needs all assets, not just houses.

Every bit of green space cannot be built on! Leave us something.

Strong objection.

Kind regards
