To Whom it May Concern;

I am writing to object to your planning application number DM/26/0454.

I am 14 years old. I shouldn't be spending my own time writing an email about a decision that should have been properly thought through in the first place, but I have to because even I can understand this plan isn't right for the area.

There isn't enough space in the area to build 34 more new homes. The houses designed are practically stacked on top of each other and look a mess. Building more homes will only create more traffic problems, more noise, less privacy and add more pollution. It's also completely inconsiderate and annoying for the people that already live in this area.

And what about the land these homes will be built on? It originally belonged to wildlife and stripping their habitat away for even **more** houses for humans is greedy, selfish and unnecessary. Once this natural land is gone, it's gone.

The construction will also cause significant disruption for people living nearby, especially for myself. I'm online schooled and do my school work from home. This development is directly opposite my house. My education should not have to suffer because of a development that does not fit the area. Why should I have to put up with that? I think I can speak for everyone by saying no one wants to listen to loud machinery all day. I mean really, I expect the people that thought of this plan wouldn't want construction noise outside their house all day, or the extra traffic it will bring.

It's honestly just greedy and stupid.

So let's not build these ugly houses, work on getting some empathy, maybe work on something to help the existing wildlife in the area that were here before us and all happily hold hands instead.

From,
