Subject: DM/26/0393 - Replace garden shed and relocate fencing - 2 Turners View, Cuckfield

Follow Up Flag: Follow up
Flag Status: Flagged

Further to the notification of the above planning application we are pleased to confirm that we SUPPORT this application.

As the immediate neighbours to the proposal, we wish to confirm that they have consulted us during their consideration of the proposals, and that they made changes to the appearance of the proposed outbuilding to accommodate our preferences. As a result, we are pleased to see that the building will be clad all round with cedar, which will match the Chestnut wood that already forms part of the cladding of the houses.

Even though the new building will be taller than the current shed by around 0.5m, and will be visible from our patio, as it is no further into the garden than the current shed, it will not create any material difference to our outlook. This part of our patio looks onto the side of the house at 2 Turners View anyway, as the house is slightly set back compared to ours, and so the backdrop to the new outbuilding will be against the house anyway. As a result, it will not have any impact on the light that reaches our property or on the general outlook or amenity.

The revised fence line will not affect our amenity or outlook, and we have no comment to make regarding this aspect. Although two car parking spaces will be retained on the drive, there is ample space to park on the street in any event, as there is a considerable surfeit of visitor parking provided here in any case.

Therefore, for these reasons, we support the proposals.

Please do not hesitate to contact us if you require any clarification with regard to this response.

regards,

[REDACTED]
4 Turners View, Cuckfield
