|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|  | <p>Plots 6-7 &amp; 14-15 are maisonettes builds, plots 6 &amp; 15 are top floor so the stair core was infilled during today's inspection, plots 7 &amp; 14 ground floor will be installed at a later date. MEC were unable to gather photographic evidence of the materials packaging used (Premseal GMA) during today's inspection.</p> <p>Note: The plots referenced were built on raft foundations and therefore have no air bricks in place.</p> |  |
