Dear Katherine Williams,

I am writing as I have previously explained this planning application is illegal.

[REDACTED]

Kew desperately wanted access and ownership to the driveway from the cross at the corner of driveway to the farm down to pondfield cottages. This is all the deeds of the farm and the cottages they belong to the coudrey trust and Dickinson trust, which involved Lady Veronica Mary Tritton Pearson and a charity run by people that own large gardens and who want to keep it in its nature state using the natural environment of the land, ie Wakehurst gardens all have shares in this charity trust. They have given advise to people who have large gardens and how to keep it natural, which they give advice and money if needed. (Kew was one of the large gardens that asked for their advice and donations of money) The work has already started going against all Lady Trittons conditions of sale and the planning still has not been approved.

As I have said before the ownership of the farm and cottages land was owned by Lady Tritton under the agency of cluttons East Grinstead she married Patrick (Paddy) Tritton and they lived at Monks in Balcombe. When Paddy died she inherited Parham Park a and she was then the owner of the large Latham Park estate.

As I have stated before all the forms filled in are false about the council and this planning application I will refer you to the planning application DM/22/1774. The decision date 5th June 2023, Front page and then page 3 number 5'6 &7 and page 4 number 8,9,10,11&12. Then page 8 number 22 and 25. Then page 10 under INFORMATIVES number 1 and 3 follows onto page 11. Finally page 13 heading Appeals to the Secretary of state.

Wakehurst Gardens was never ever left to Kew

Kind regards
