Comments Details

Commenter Type:	Other type - not listed
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The scale of this development is significant and raises serious concerns about its impact on highway safety. Hurst Road is a narrow road that already experiences significant traffic congestion which is exacerbated during construction projects from neighbouring properties. The proposed works would have a demonstrable negative impact on the local highway network, specifically concerning traffic flow and road safety during both the

construction and operational phases of the development.

I respectfully request that you consider imposing a condition to mitigate the risks to road safety posed by this development.

For the record, I did not provide my fully informed consent for this application, the original application, or any other related applications for the property. While I understand that planning permission is separate from property law, I want to highlight that the applicant requires my express written consent to undertake any works on the property. This extends to surveys or instructions in relation to any planning applications for the property.

Kind regards
