Commenter Type: Neighbour or general public

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: strongly support the proposed refurbishment and extensions to the building. As someone involved in delivering community boxing sessions, I believe these improvements will make a significant positive difference to local residents.
Replacing the windows, improving roof insulation, and carrying out structural upgrades will create a warmer, safer, and more energy-

efficient environment, enabling activities to run year-round. The new side extensions could provide much-needed space for inclusive sports sessions, safe storage of equipment, and accessible areas for participants and spectators alike.

The addition of secure bike storage is an excellent step towards encouraging active travel, and the rear landscaping and storage shed will further support safe, organised use of the space. I would encourage consideration of accessibility for people with mobility needs, secure lighting for evening use, and thoughtful placement of bins to ensure the area remains welcoming.

Overall, this proposal represents a valuable investment in the local community, improving facilities for other potential community activities. It will provide a safe, inclusive, and sustainable space that promotes health, wellbeing, and social connection for people of all ages. I fully support its approval.

Kind regards
