Comments Details

Comments:	The proposal is to construction two new commercial buildings on the site and incorporate some renewable energy facilities. I note the proposed hours of use of the commercial site. I have no objections to the proposal. However, due to the significant construction activities, I recommend the impact of these on the nearby residents are controlled by a construction environmental management plan. Prior to the commencement of the development a Construction Environmental Management Plan (CEMP) shall be submitted to and approved in writing by the Local Planning Authority. The Construction Environmental Management Plan shall include amongst other matters details of: measures to control noise or
-----------	--

vibration affecting nearby residents; artificial illumination; dust control measures; pollution incident control and site contact details in case of complaints. The construction works shall thereafter be carried out at all times in accordance with the approved Construction Environmental Management Plan, unless any variations are otherwise first submitted to and approved in writing by the Local Planning Authority.

Kind regards
