

Hi Catherine,

Thank you for your call earlier.

I have provided some photos of some existing coffee #1 stores below which should hopefully give an idea of the colours and signage proposed for the site in Haywards Heath. Hopefully this helps but let me know if you require any further information or examples of the branding/ colours.

Yes, that's fine for the projecting sign to be included within the advert's application and be reconsulted. I believe that it was submitted with the advert's application originally on the planning portal but it may have got mixed up with the other application somewhere along the way.

Kind regards,

Liz
