Customer Details

Address: 9 College Close Handcross Park Haywards Heath

Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	There are numerous reasons we object to this application. The site is in a bad location for extra traffic. The junction would be right on top of the existing parking chaos already caused by the school, where I have seen several near misses and general disregard for the 30mph speed limit where it changes to/from 50mph. Extra traffic burden in this location would be disastrous.

The GP surgery is already over capacity and adding 55 new houses is not tenable.

The village already suffers regular power and water outages and we have concerns about the burden of more housing on an infrastructure which already seems unable to sustain the existing population.

I'm not sure if this gets taken into consideration but the loss of green space where we regularly watch deer and often see other wildlife would be heartbreaking.

The construction period would be unbearable with noise, further damage to an already crumbling road caused by heavy vehicles, and further difficulty crossing the road, which is already a game of Frogger as it is.

We do not support this application and hope the owner can find a more suitable way to proceed with new plans for the space which still brings them the financial gain they seek.

Kind regards
