Morning Katherine,

We confirm the works will solely be on my on my side of the land and the extension will not extend over into the neighbour's property. Also, only my garage will be removed, and all the remedial works will done so that there is no impact on my neighbours garage. I hope this is ok.

Many thanks

Kind Regards
Sharbin Chowdhury.

Dear Steven,

Thank you for the additional plan.

As requested within my previous email, can you confirm whether these works would be solely on your clients land and not extend over onto the neighbour's property.

Once this has been confirmed the additional plan will be added to the file and the application will be re-advertised before the application is determined.

Kind regards

Dear Steven,

Thank you for your email.

Can you confirm whether the remedial works will be on the applicant's side of the remaining wall of the garage?

Should the wall of the garage be rendered can an elevation plan of the garage be provided.

Kind Regards

Dear Katherine

Confirmation of remedial works to the wall & roof of the neighbours garage.

A 450mm felt strip will be applied to the edge of the roof and drip formed over a new fascia board to seal the roof. The wall as it is just to a garage can remain as brick but I recommend that a render coat is applied to the new exposed wall only.

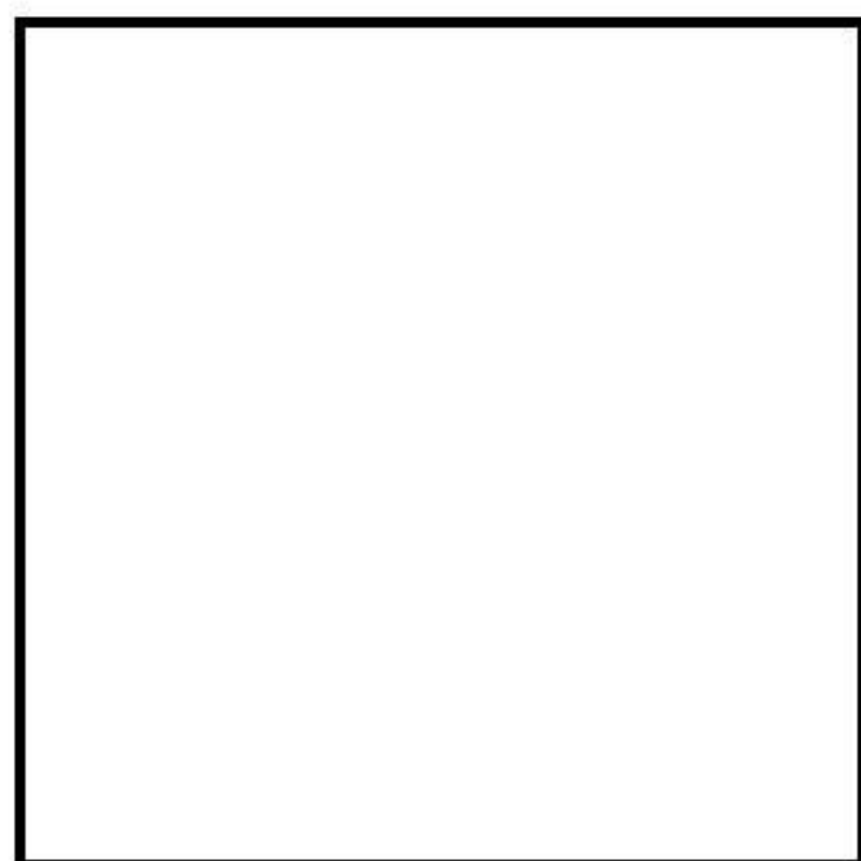

Kind regards

Steven Barrett

Hi Katherine

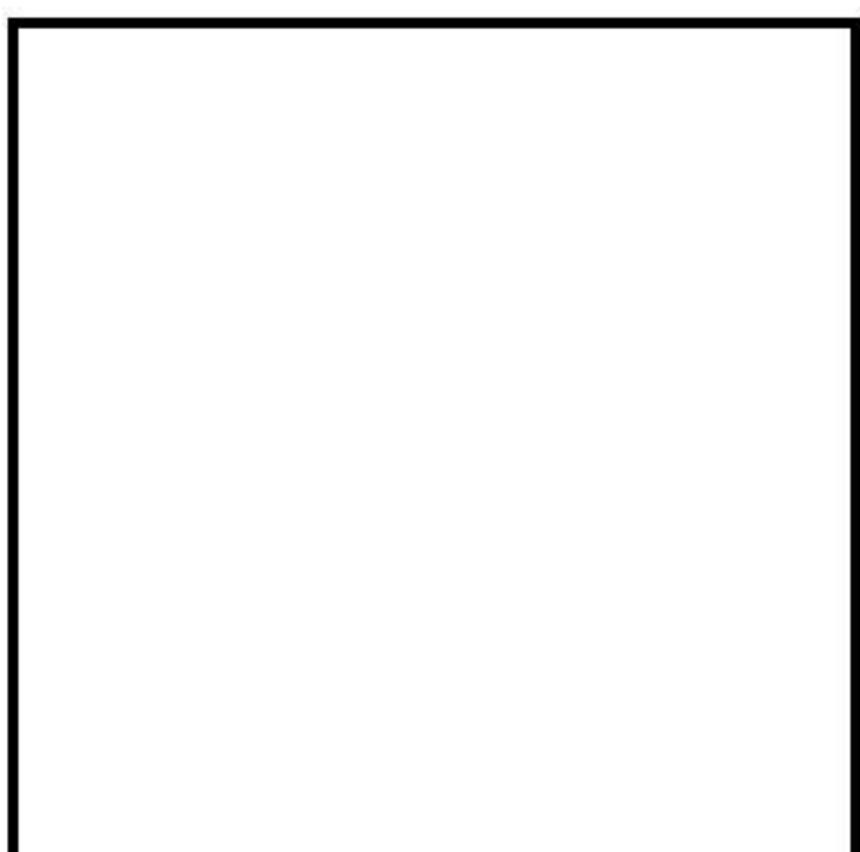

Thank you for your email.

I am waiting to hear back from my client to see if the neighbours have converted the old garage when they built their two storey extension. If it was converted then at that time it is assumed that waterproofing to the existing walls and then an independent wall would have been built within the garage. If this is the case then no remedial work will be carried out to the brick wall. If it still remains a garage then the chances are it will not have any remedial work to the brick wall unless the neighbour requests a render coat to be applied.

I hope this helps.

Kind regards

Steven Barrett

Dear Mr Barrett,

I am writing with regards to the above application.

I note from the plans that the existing garage is attached to the adjacent neighbour. As part of the proposed demolition of the garage are any remedial works proposal to the side elevation of the neighbour?

Kind Regards
