Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The mast and cabinets will ruin the aesthetic of the area. You must consider both the mast AND the cabinets together. I know that the telecom companies have development rights on the cabinets but they would not put up either without the other. The mast is highly visible and is in no way camouflaged.

It is too close to nearby homes. The dangers of 5G are well documented, especially with so many young children nearby in all the new housing this is of great concern.

Kind regards
