Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	We refer to the above planning application for various signs to be erected. We object to Item Location No. 5 for a post mounted directional sign close to the corner of Chapel Lane and Turners Hill Road for the following reasons. 1. It is too close to the boundary of Chapel Lane and could be clearly seen within the lane. It will be illuminated therefore making it even more obvious from within Chapel Lane. 2. The proposed sign is excessively dominant and will change the

character and rural nature of our lane which needs to be protected.

3. It could be misleading and cause cars when approaching from West Park Road to turn into Chapel Lane by mistake even with a directional sign. People frequently misjudge distances and react immediately on seeing a sign. This has certainly proved to be the case in the past.

We have and continue to have unauthorised parking in Chapel Lane which is a private unadopted lane. This has meant restricted access for both deliveries and refuse collections on occasions.

This sign could easily be moved further along Turners Hill Road out of sight of Chapel Lane and still achieve the purpose for which it is intended.

Kind regards
