Subject: DM/26/0649 - The Paddock, London Road, Hassocks

Hi Hamish,

I have reviewed the Arboricultural Justification Statement, and I require some further information.

The statement refers to a Tree Report that was carried out 10 years ago and is not available on the planning portal with this application. It would be very much out-of-date now, so I would require that an up-to-date Tree Report was provided. This should include a Tree Constraints Plan, detailed Tree Survey, Arboricultural Impact Assessment, and if required a Tree Protection Plan and Arboricultural Method Statement.

Please could you request the additional information and then reconsult me once you have received them?

Kind regards

Emma
