Dear Catherine,

Further to the comments from the Architects, it should be noted that this tree is not subject to TPO, however it is a category B tree, which is a constraint to development. However, on reflection, provided that the foundation design is included within the Arboricultural Method Statement and therefore can be conditioned, I would no longer object to this application. Please could you request that this is added to the Arboricultural Report and then let me know.

Kind regards

Emma
