Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I fully support planning application DM/25/0090 for the proposed equestrian facilities at Eastwood Farm. As a fellow horse owner and showjumper, I know how important it is to have the right facilities to train horses properly, and this project will provide exactly that.

The design has been carefully planned to fit in with the surroundings, making good use of the land and ensuring the buildings are well hidden by the existing woodland. The layout also works with the natural shape of the land to keep the impact on the landscape as low as possible.

It's great to see the farm being kept together as one piece rather than being split up, which has happened to so many farms in the area. The land has been unused for a long time, so this is a great opportunity to bring it back to life in a way that suits the location.

This facility will give Luca Cullum Cina a proper base to train and develop as a competitive showjumper. Having the right setup at home will be a huge benefit to both him and his horses as he moves up in the sport.

This is a well-thought-out plan that makes good use of the land without negatively affecting anyone nearby. I hope the council will approve it.

Kind regards
