Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I wish to offer my support for this planning application, as it presents a sensible and balanced approach to land use by retaining the area in its current open and undeveloped state. With increasing pressure for housing in the local area, it is important to maintain spaces that contribute to the character of the community and avoid overdevelopment. This proposal helps preserve the openness of the area and keeps the field available for local wildlife, while providing a welcome alternative to further residential schemes. I believe this represents a more appropriate and

sustainable use of the land and therefore fully support the application.

Kind regards
