Reasons for comment:

Comments: Following our last comment we would like to object to the proposed development as now that the construction has started and part of the boundary hedge removed we are very concerned that the height and depth of the extension will mean our garden privacy will be compromised.

It would appear they could see into our garden from this higher new extension which we're not comfortable with.

We would also ask whether planning have been checking that the

construction so far is within the plans submitted, as given the size we want to ensure extra floor area is not being taken outside of the planning application and therefore threatening our privacy further.

Kind regards
