### Comments Details

Comments:	<p>The committee has no objection in principle to the development of housing on this site and considers a small residential estate to be a better use of the land than an industrial unit.</p> <p>However, the committee has concerns about the safety of the site for residential use due to its proximity to the battery storage facility. We request that MSDC carefully review the Fire and Rescue Service's submission and consider whether the proposed site layout allows for sufficient distance between the housing and the boundary with the battery farm.</p>
