Subject: Retrospective Planning application DM/26/1265 substantiation of commercial comment

Dear Caroline,

In one of my emails I commented that the above development at 38 Savill Road has tones of a commercial building.

I just wanted to substantiate this comment by providing an image from Bell Lane in Uckfield, which has industrial units of various types for both trade and retail purposes. There are no residential properties in the immediate vicinity.

The second image below shows that whilst the colour is different the style is remarkably similar. Admittedly, the Bell Lane building does not have any windows above ground floor.

38 Savill Road

Bell Lane Uckfield

Kind regards
