Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	All proposed flats with bedrooms in the roof space will suffer large fluctuations in room temperature. They will be cold in winter and unbearably hot during periods of high temperatures. Due to global warming there will be more and more periods of high temperatures in this location.

The building is not suitable for current version of the plans which
utilises the roof space for multiple bedrooms.

Kind regards
