Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Since my initial objection I have been advised in your letter dated 6th May 2025 that certain amendments to plans and description of the installation have been made. These changes make difference to the fact that the installation of a 30 meter tower is totally inappropriate for this location within the centre of a residential area. The tower will "tower" above houses to the west and to the

east and will be very noticeable over a wide area. it will be within a much used green space by local residents and a well used route to the station and beyond. The work will impede this movement and on the neighbouring footpath between Maple Close to Valebridge Road. The resulting tower will be an unwelcome eyesore to all housing in a wide circle and I strongly object.

Kind regards
