Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	

Comments:

I wish to object to the retrospective planning permission for 3 containers at EBISS Victoria Gardens which are sited very close to the boundary fences of the many properties situated in Victoria Close.

I notice they state they store everything except nuclear waste.

Does this storage include Dangerous Goods, such as explosives, ammunition, fireworks, chemicals etc?

What security and health and safety measures have been put in place to ensure the area is safe for the public ?

What measures will be put in place to monitor potentially dangerous, toxic and inflammable substances.

Are the fire brigade to be informed of potentially dangerous, toxic and inflammable substances being stored so close to residential properties which could well be a hazard to the public and fire fighters as well.

What hours are EBISS going to be accessing these 3 containers are there does not appear to be any operating hours included in this planning application.

I wish to object to this retrospective planning application for these 3 containers

Kind regards
