

Dear Mr Clarke

I wish to raise objections to this proposed storage unit / units being placed in the area behind the houses on Victoria Close. As a resident of number 25, this backs onto my property and the noise, activity and look of the installation is damaging to the aesthetics of the property which we are hoping to sell in the future, and also a source of disturbance to my dog, who was very distressed when it was being installed.

Please take this into consideration and raise this with the appropriate parties.

Thank you

25 Victoria Close
