Side Elevation

This line drawing shows the side profile of the house. It features a gabled roof with a chimney on the right side. The front facade includes a set of double doors, a single door, and a small window. The back entrance is reached via a set of stairs and is located under a small porch. The drawing is a simple line art representation.

This architectural elevation drawing shows a two-story building facade. The left portion features a large, multi-paned window on the upper floor and a set of three vertical glass doors or windows on the ground floor. To the right, a taller, more modern structure with a flat roof and a single window is visible. The drawing is a line art representation, typical of architectural blueprints.

A line drawing of a house with a chimney, a dormer window, and a porch. The house has a gabled roof with a chimney on the left side. A dormer window is located on the right side of the roof. A porch is attached to the left side of the house. The drawing is a simple line art illustration.

Elevations Proposed

Scale 1 : 100 

Scale 1 : 100 

A detailed architectural line drawing of a house elevation. The house features a gabled roof with a chimney on the right side. The front facade includes a central door with a transom window, flanked by two windows. A small porch area is visible on the right side of the house. The drawing is a black and white line art illustration.

This architectural drawing shows a two-story building facade. The ground floor features a large glass entrance with a diamond-patterned mullion system on the left and a solid double door on the right. The second floor has a large window on the left and a smaller window on the right. A red line runs diagonally from the bottom left towards the second-floor window, and a yellow line runs diagonally from the bottom right towards the same window. To the right of the main building, a portion of another structure with a grid-like facade is visible.

The information provided is either for client information, planning consideration or shows compliance under the building regulations. It does not purport to provide all the information necessary to carry out construction works and could be subject to variation in detail.

Prior to commencement of work on site, dimensions and particulars should be checked and any discrepancies reported immediately to Jones projects Architectural **DO NOT SCALE.**
