Dear Sir/Madam,

We note that amended plans have been submitted with a response deadline of 19th June.

We reiterate our objection to the demolition of the existing building and erection of a replacement dwelling with annex accommodation. Our initial comments remain unchanged. This level of work and construction will adversely affect the area which is an area outstanding natural beauty, there is a high risk of pollution to the lake and the original building has merit and fits in with the existing landscape and should be retained.

Kind regards

Reasons for comment:

Comments : The area in which this house sits is of natural beauty. The Mill and associated cottage are listed buildings. The original house has architectural merit and although not listed does fit in with the aesthetic of the area. It features the existing Studio flat in its library of images;

Additionally, the lake is a fishing lake in a beautiful setting which has been relatively unchanged for hundreds of years and is now negatively impacted by the level of demolition and development proposed.
To summarise, the proposed development will have a negative impact on the landscape and locality and w
