Commenter Type:	Other type - not listed
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	EHS sufferers are increasing in numbers every day. This type of frequency is harmful to ALL life. We have already lost 73% of wildlife including insects and essential bees for pollination. Humans are feeling unwell, exhausted and suffering many ills including heart issues due to these unnecessary towers/technology.

ALL towers everywhere should be removed and free energy implemented with communications remaining at 3g or 4g maximum. Even 4g is too much for many people but the smart phones, smart meters, appliances etc can be avoided and wifi can be switched off. Those who know the dangers do NOT want this! By allowing these monstrosities you are knowingly causing harm.

Kind regards
