

FAO: Planning Department,
Mid Sussex District Council

Application ref: DM/25/1473
Date: 19 June 2025

ARCHAEOLOGICAL ADVICE

RE: New Close Farmhouse, London Road, Hassocks

The application is for the discharge of condition 5 of planning application DM/23/2837.

No historic environment objections	
No historic environment objections subject to attached conditions	
Further information required	
Recommend partial discharge of condition	X

The submitted Written Scheme of Investigation suitably describes the methodology and archiving commitments of the required scheme of archaeological monitoring and recording.

Accordingly, I recommend that Condition 5 is partially discharged, to allow the development (and archaeological monitoring) to commence.

The remainder of Condition 5 should not be discharged until the completion of the archaeological monitoring work and the submission and approval of a report outlining the results of the same.
