Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	
Comments:	I am writing in response to the planning application no. DM/25/2538 regarding proposed tree works including on my property. I have reviewed the submitted tree report and would like to formally record my position.

I acknowledge the concerns raised and recognise the importance of responsible tree management, I do not support the removal or significant trimming of trees unless they are clearly identified as being dangerous, diseased, structurally unsound, or pose a clear risk to houses or public safety. The trees in question contribute significantly to the local environment, biodiversity, and the overall character of the area, and I am keen to ensure that their preservation is prioritised wherever possible.

That said, we fully appreciate the need for neighbouring properties to manage overhanging branches, and we are very happy for any such branches to be trimmed back appropriately. We believe this is a reasonable and practical approach that respects both property boundaries and the health of the trees.

Kind regards,
Stephen Boarder

Kind regards
